Summary

I am a reliable individual with a keen interest in tackling challenges head-on. As an aspiring software developer, I am driven by proactive leadership and a commitment to excellence in my work. I embrace change and am dedicated to continuously enhancing my skills in software development.

Education

- Degree: Bachelor of Science in Computer Science
- University: Eastern Washington University
- Year: 2024

Skills

- Programming Languages: Python, Java, C++
- Web Development: HTML, CSS, JavaScript
- Version Control: Git, GitHub

Experience

Amazon Fulfillment Center

- Position: Assosiate
- Dates: September 2023 - Current
- Description: Organize incoming inventory according to warehouse standards, ensuring efficient storage. Collaborating with team members, we maintained accuracy and optimized workflow for timely item stowing, aiding easy retrieval for pickers.

Nuestras Racies HBPA

- Position: IT Intern
- Dates: June 2021 - January 2024
- Description: I designed branding materials such as websites, logos, and business cards. Additionally, I managed the organization's online presence across website and social media platforms.

Projects

Donut Parade

- Description: For our senior project, we are creating a website for local shop, DonutParade. The store website will allow online and pickup orders as well as keep track of inventory. My role for this project, is front-end, meaning I am working on the design and implementation of the store website.
- Technologies Used: React, Vite, VS Code

Certifications

- N/A

Interests

- Problem-solving through coding puzzles and challenges.
- Exploring new programming languages and technologies.
